

## Final text of the European Regulation on Artificial Intelligence approved: A Risk Based Approach

Given the digital revolution that is sweeping our era and the consequent exponential increase in the spread of Artificial Intelligence, on March 13, 2024 - after a long process that began in the spring of 2021 - the European Parliament approved the final version of the Regulation on Artificial Intelligence (so-called A.I. Act), intended to ensure uniformity of discipline within the different EU member states in relation to the development and use of Artificial Intelligence systems.

An Artificial Intelligence System is defined as a machine-based system designed to operate with varying levels of autonomy that may exhibit adaptiveness after deployment and that, for explicit or implicit objectives, infers, from the input it receives, how to generate outputs such as predictions, content, recommendations or decisions that can influence physical or virtual environments. ## The countdown to Brazilian tax reform has begun

An old saying goes that "the devil knows more because he's old than because he's the devil" (I researched its origin but couldn't find it for sure: I accept suggestions!). Approximately 20 years ago, tax legislation in Brazil was substantially changed... Additional information [here](#).

## Exploring Foreign Investment Opportunities in the Brazilian Distributed Generation of Electrical Energy Sector

The energy landscape in Brazil is undergoing a transformative phase, driven by a combination of technological advancements, policy reforms, and increasing global demand for sustainable energy solutions. Additional information [here](#).

## ICT and the rule of law

The institutions of the rule of law must guarantee the conditions that make it possible to defend individual rights and discover in time the cracks through which the virus of the rule of force sneaks in. It is necessary for society to defend the Rule of Law, which is, together with human capital, Information and Communication Technologies and entrepreneurship....
